The diagram illustrates a Japanese-style door lock mechanism. It features a vertical grid of 10 horizontal rows and 5 vertical columns. A red box labeled '鉄格子' (iron grille) is positioned at the top center. Two grey L-shaped blocks representing 'Tsubo' (latches) are located in the middle-left and middle-right columns. A black L-shaped component representing a 'Lever' is centered in the bottom-middle column. Red dots indicate the centers of the 'Tsubo' and 'Lever'. Arrows point from the labels to their respective components.
